

Trim the tree with AMG.

The next best thing to an AMG under the tree is one on it. It's easy to create a unique high-performance Mercedes-AMG GT holiday ornament that's sure to become the talk of your tree. All it takes is a little time, a pair of scissors and clear tape (or a glue stick). Get rolling and let us help you share the joyous spirit of the season.

1. Cut around the outline of the AMG GT
2. Fold all the dotted lines
3. Tape (or glue) the white tabs in place and save the large bottom section for last
4. For peak performance, hang on tree, display on desk or mantel, or even over a doorway to create AMG mistletoe
